Key Features - At A Glance

Single/ Twin Station Thermal | Drawer 4 Note & 8 Coin | Keyboard 150 Keys (Flat) | 10000 PLU's (Price Look Ups) | Barcode Scanning Option

Standard RS-232C Communication

Connect to a wide array of compatible off-the-shelf POS peripherals. Two RS-232C communication ports are standard and two additional ports are available for:

- Direct or Modem PC Communications with Optional Polling Software.
- Kitchen Printer.
- Scanner.
- Pole Display.

Remote Printing

The Ellix-40 II is the latest in thermal receipt printer from Sam4s. With lightning fast performance, up to 220mm second output, drop & load printing and the ability to include barcodes and graphics, its the first choice for your business.

Thermal Printer(s) & Keyboard Types

Choose a single printer or traditional receipt and journal model. Both provide fast, quiet thermal printing. Drop-in loading simplifies paper changing and virtually eliminates paper jamming.

Receipt & Journal Printer (Models; ER-940, ER-945)

Use a two-printer model when a customer receipt and a traditional real-time printed journal is needed for sales archival.

Single Printer Models (Models; ER-920, ER-925)

The Single printer models are best for receipt only or journal only applications. If you choose a single printer model for printing receipts, you can record your journal electronically in the register's memory.

Electronic Journal

If a receipt and a sales journal is needed, the journal can be archived electronically for printing at end of day, can be collected on an SD card, or can be polled and collected by a PC.

A variety of electronic journal reports are available that allow you to quickly audit selected activities.

Keyboard (For Retail)

The traditional raised key keyboard provides 56 keyboard PLU keys and can be decreased by your Sam4s dealer to 21 PLU keys. Keyboard PLU's act like traditional departments for open priced entries or can be set as preset price keys. Large key size provides easy-to-read key labels.

Keyboard (For Hospitality)

With 150 key locations, the flat keyboard can easily accommodate large menus with preset keys for each item. Where menus change daily with breakfast, lunch or dinner times the paper key-sheet under the overlay is easily exchanged.

> "Choose a traditional 56 key raised or 150 key programmable flat keyboard."

Samstock 4.9 PC Software (Optional)

Samstock tracks sales quantities and values for each product sold providing detailed, comprehensive reports on sales and profit. Historical sales reports are available by date range and comparative periods.

Historical sales reports are available by date range and comparative periods. Samstock can also control maintenance of product files including prices & promos.
