VACUUM PUMP OIL

**LUBRICATES & CLEANS
VACUUM PUMPS**

- Highly demulsifiable...separates from water in 25 minutes at 180°F.
- Powerful sludge dispersant loosens dirt, sludge and cleans pump.
- Combination of additives makes for true anti-wear lubricant and lengthens pump life.
- Anti-rust ingredient protects internal parts.
- Vapor pressure less than 0.1 microns at 140°F

NET CONT. 1 U.S. GALLON (3.785 L)

APPLICATION:

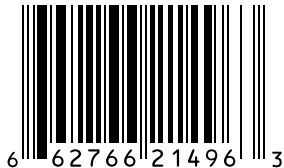

After 15 to 20 hours of operation, drain vacuum pump and refill with VACUUM PUMP OIL. NOTE- Because of its extra cleaning power, VACUUM PUMP OIL may become discolored. Remember VACUUM PUMP OIL is both a vacuum pump lubricant and a flushing oil.

CAUTION:

Dirt and sludge can reduce efficiency and damage pump. VACUUM PUMP OIL's special additives prevent sludge formation and keeps dirt in suspension. Also prevents rusting and minimizes wear.
