

## F300 Whole-House Electronic Air Cleaner

# F300 Whole-House Electronic Air Cleaner

The high-performance, low-maintenance solution to cleaner air

The Honeywell Home F300 Whole-House Electronic Air Cleaner is the most advanced and easy-to-use solution for improving your indoor air quality. When installed into your home's heating and cooling filter, an Electronic Air Cleaner traps and filters up to 99%\* of airborne particles passing through the system to make sure cleaner air is distributed to all rooms in your home. It works by placing a charge on airborne particles and then collecting them like a magnet. Plus, Electronic Air Cleaners are low maintenance – simply wash the cells in your dishwasher or sink when needed.

## Advanced Technology

Places an electric charge to collect up to 99%\* of airborne particles passing through the filter.

## Highly Effective

Captures both microscopic particles like dust and smoke in addition to larger contaminants like mold spores and pet dander.

## Low Maintenance

No replacement needed. Requires only periodic washing of air cleaner cells.

## Superior Performance

The F300 is up to 30 times more efficient at capturing airborne particles compared to a standard one-inch filter

## Three-Stage Filtration

Particles enter three layers of filtering, with optional exclusive electrostatic postfilter.

## Whole-House

Cleans the air in all rooms throughout your home.

## Widely Compatible

Works with virtually all residential forced air systems.

## Easy to Upgrade

Get even higher performance when the postfilter (included) is used.

## Exclusive 10-year UltraClean Coil Guarantee
